

**Input: 28x28x32**

**Output: 14x14x32**

// Calculating the output at coordinate 0,0  
Output[0][0] = Max(Input[0][0], Input[0][1],  
Input[1][0], Input[1][1]);

// Calculating the output at coordinate 8,10  
Output[8][10] = Max(Input[16][20], Input[16][21],  
Input[17][20], Input[17][21]);
